EXAMINER'S AMENDMENT

Allowable Subject Matter

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

2. In re Para [001] of the specification, the following amendments have been made:
- The phrase "The present application claims the benefit of U.S. Provisional Application, Ser. No. 60/897,170, filed Jan. 24, 2007, which is hereby incorporated herein by reference in its entirety" has been replaced with --The present application claims the benefit of U.S. Provisional Application, Ser. No. 60/897,170, filed Jan. 24, 2007, which has been abandoned, and is hereby incorporated herein by reference in its entirety--.
3. Claims 35, 36, and 38-41 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a second optical emitting device projecting a second optical indicator substantially aligned with a second side of the kerf, in combination with the other elements (or steps) of the apparatus and method recited in the claims.

5. The prior art (US 6,397,717) discloses a saw having an optical indicator projecting the width and location of the kerf or a cutting path of a workpiece, but does not fairly teach of suggest a table saw having a beveling cutting device assembly, in which an additional or second optical indicator is provided (to work in conjunction with the first optical indicator) to align with a second side of a kerf during a cutting process.

Therefore, it has been reasonably concluded, a combination of the cited prior art would have relied on hindsight reasoning. One having ordinary skill in the art at the time of invention would not rendered it obvious to provide a saw with a second optical indicator to align with a second side of a kerf.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
